mysql workbench 连接远程数据

Mysql Server 远程连接设置

1. sudo vi /etc/mysql/mysql.conf.d/mysqld.cnf

```
#注释 blind-address
#bind-address=127.0.0.1(默认是没有注释的)
```

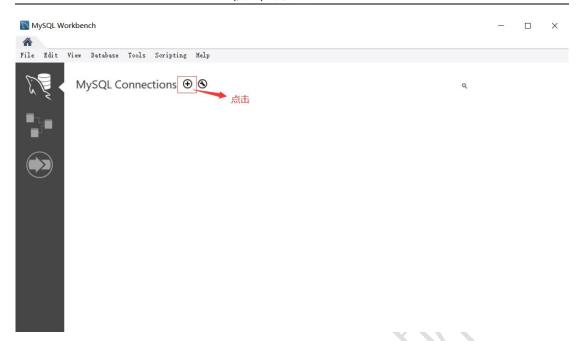

2. 设置远程连接

3. 重启 mysql server

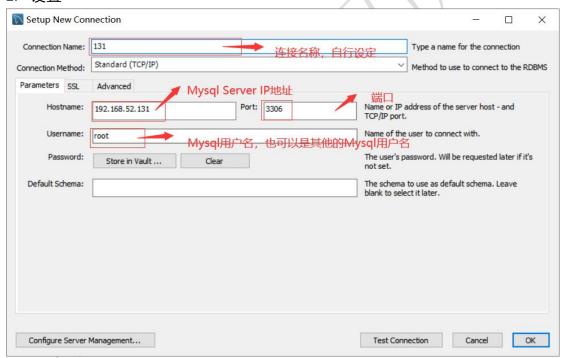

```
sudo/etc/init.d/mysql restart
```

Mysql Workbench 连接

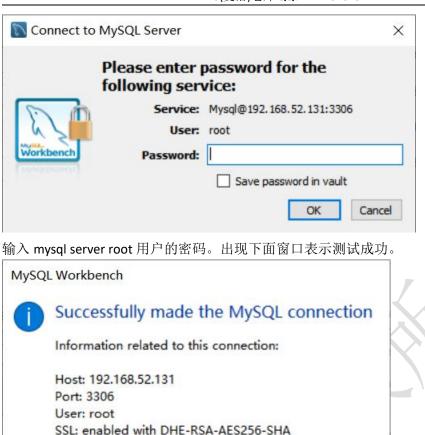

1. 打开 mysql workbench, 并点击"+"号。

2. 设置

3. 点击【Test Connection】进行测试。(此步骤也可以不测试)

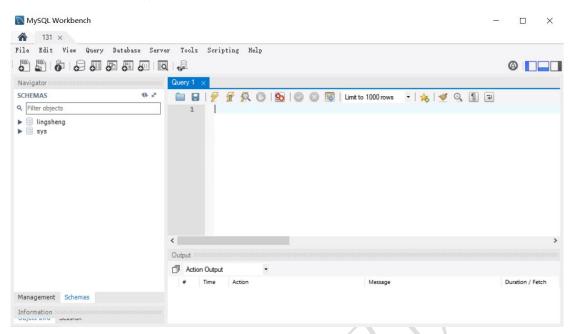

A successful MySQL connection was made with the parameters defined for this connection.

4. 连接,点击【OK】进行连接。

OK

5. 点击刚刚生成的界面框。

出现此界面表示已经成功连接到 mysql server。
